TC001a	Validate Jav	/aScrip	t code using the jshint.com validator				
		1					
		1	O				
		_	Open the JavaScript files found in the static/js folder				
			Copy the code to the clipboard				
		3	Navigate to the JavaScript validator at jshint.com				
		4	Paste the code into the validator box				
		5	Enable ES6 features in the configuration settings				
		6	Return result for script.js	validator check returns no errors		PASS	
			Return result for blog.js			PASS	
			Return result for summernote.js			PASS	
			T			1 733	
			Open the JavaScript files found in the checkout app				
			under static/checkout/js folder				
			return result for stripe_elements.js			PASS	
TC001b	Validate CS	S code	using W3C online validator				
			Open the CSS file found in the static/css folder called				
		1	style.css				
		2	Copy the code to the clipboard				
			Navigate to the CSS validator at jigsaw.w3.org/css-				
		_					
		3	validator/				
		4	Navigate to the direct entry tab				
		5	Paste the code into the validator box				
		_	Click on the check and butter to substitute and	ualidater shook returns no orrers	Validator returned no	DACC	validator did return four warnings relating to vendor extensions
		6	Click on the check code button to submit the code	validator check returns no errors	Validator returned no errors	PASS	and imported style sheets such as googlefonts
			Open the css file found in the static/checkout/css folder				
		7	within the checkout app				
		8	copy the code to the clipboard				
		9	paste the code into the validator box				
		10	Click on the check code button to submit the code	validator check returns no errors	Validator returned no errors	PASS	
TC001c	Validate HT		de using PEP8 Online checker + check console				
. 55516	- Junuate III	00	In a browser navigate to the site at: https://druid-		1		
		١.					
		1	computers.herokuapp.com/				
		2	open the dev tools and copy the html that is rendered				
		3	navigate in another browser tab to validator.w3.org				
		•	•		•
